Dear Bruce,

My name is Martin Ellison and I am the Communications Director for sex.com, the premier destination for all sexual "pinned" content.

I am reaching out to you today in regards to the article I just read on TMZ about your client, Miley Cyrus' new music video with DJ Borgore. After seeing a preview for the video "Decisions", we were floored at how sexy both her, and Porn star Jessie Andrews look together!

We've already reached out to Jessie's manager, as well as Beacher's Madhouse to partake in a filming of a "naughty" XXX version of this music video. We feel quite confident that we can secure the same venue, along with the same goats and little people. All that's missing is MILEY!

As you are already aware in the video she kisses her boyfriend, Liam who is dressed as a unicorn. We'd like to replace Liam with the AVN Starlet of the Year, Jessie! We aren't looking to make a boy/girl " Hannah Does Montana" sex video here, but rather a softer "girl on girl" version. Of course your client would be compensated extremely well to be nude and to have "erotic" girl on girl relations.

How far Miley chooses she wants to go is entirely up to her. We adore her new sexy look, and our members at sex.com have been emailing us all day begging us to make her and Jessie an offer to star together on film together! Considering they are both sexy and youthful in their appearance, we think this could be the most downloaded video of all time! Please respond to this email to, let us know if there is any interest.

Regards,
Martin Ellison
