Mr. Phil Griffin,

I request on behalf of myself and my family that we be allowed to view the documentary that MSNBC plans to air on Dr. Conrad Murray. I feel it morally reprehensible to cloak a murderer and convicted felon with celebrity status, which the airing of Dr. Murray's views will undoubtedly accomplish. This becomes even more egregious since Michael is sadly and obviously unable to defend himself against whatever allegations may be made. I find it equally disgusting to permit this criminal to profit from homicidal acts that left my family without a brother, my niece and nephews without a father, my parents without a son and deprived the world of an irreplaceable artist. Nonetheless, I understand that legally MSNBC is protected by the first amendment. I sincerely implore MSNBC from airing this program. Since it appears your company will not do so, I ask at the very least MSNBC permit my family to view the tape amongst ourselves in advance of its airing to the public.

Mr. Griffin, take a moment to put yourself in our shoes and appreciate our suffering for the past two years. I ask that you grant this simple request and I await your reply.

Sincerely, La Toya Jackson
