Dear June:

My name is Steven Hirsch and I head Vivid Entertainment, the world's leading adult film company. We are known for our award winning movies which include our library of celebrity sex tapes. They include films starring Kim Kardashian, Kendra Wilkinson, Tila Tequila, etc.

One of the new genres that has become popular on VividTV and vivid.com, is BBW, which stands for big, beautiful women. We believe you would fit into that category. Mike "Sugar Bear" Thompson and you should seriously consider making a movie with Vivid that could earn you up to \$ 1-million or more. We would make the experience an enjoyable one for both of you and give you as much creative input as you would like.

Please call me at your earliest convenience at the number below to discuss this opportunity. I very much look forward to speaking with you.

Sincerely,

Steven Hirsch
